All eyes on Merkel's carbon charge

Bloomberg New Energy Finance 24 Oct, 8:33 AM

[…]

Meanwhile, it was another good week for clean energy share prices. The WilderHill New Energy Global Innovation Index, or NEX, which tracks 96 clean energy companies, gained 2.3 per cent in the trading week ended October 18, propelled by gains in its largest sectors, solar and wind.

Among other clean energy barometers, the NYSE Bloomberg Global Solar Energy Index jumped 5.5 per cent.
