

Video from the Renault-Nissan Alliance, July 2012

CNBC TV during Rio+20 Conference

On reducing carbon in transportation; from their Blog:

“The Renault-Nissan Alliance is helping customers turn their electric vehicles into carbon-neutral transportation. Watch this video, which was produced in partnership with the United Nations Environment Programme (UNEP), for more. The video was part of CNBC’s Responsible Business Television series which aired during Rio+20, the world’s largest environmental summit, held in Rio de Janeiro, Brazil in June.”
